Primary 3 - Primary 6

METAQUEST
EDUCATION

About MetaQuest

MetaQuest (MQ) is a Science enrichment learning brand under The Write Connection Family. Helmed by an experienced **ex-HOD with 20 years of experience**, MetaQuest's well-balanced programmes infuse highly-interactive activities with **effective pedagogy to drive results**. With an emphasis on **skills, strategies and techniques**, MQ helps students to **achieve academic excellence** and translate their acquired Science book knowledge into real-world application.

Our insistence on the acquisition of Science skills and critical thinking skills will mould your child into truly independent and highly motivated individuals. Long after they leave school, the skills acquired through real learning can drive and inspire them to lead an empowered life.

The MetaQuest Difference

 **Team of Passionate and Highly Qualified Educators**

 **Excel with MetaQuest's Essential Science Skills™**

 **Using Fun Hands-on Activities to Bring Concepts to Life**

 **Inculcate an Inquisitive Mind That Will Benefit the Child for a Lifetime**

 **Be Exam-Ready and Conquer Open-Ended Questions**

 **Spark Curiosity to Explore the World of Science**

Rave Reviews from Customers

"My grandson Bessarion has been so excited about Science after attending his first lesson at MetaQuest... He had so much fun and he learnt a lot. He went home to share the good experience with his parents. He wanted to attend more of such lessons."

**Barbara, Grandparent of Bessarion Sih, P3
Tao Nan School**

"This programme was interesting and the teachers were engaging. The experiments conducted were relevant and reinforced what was learnt during the lesson. My daughter enjoyed the workshop and is looking forward to more workshops conducted by MetaQuest."

**Karen, Mother of Audrey Chia, P6
Woodgrove Primary School
PSLE Science: A***

"Kaden has been enjoying his lessons with his MQ teacher ever since his first lesson. This is the first time Kaden has said that he understood his Science classes because of the clear explanations. He also loved the experiments that were conducted during the class."

"I find him more attentive during the lessons and he was able to remember concepts learnt more easily. He used to think that Science was really tough, but now he says he likes the subject. Thank you MetaQuest and his MQ teacher for bringing about the change and love for Science in him."

Mother of Kaden, P5, Maha Bodhi School

"There has been a really good balance between learning Science concepts through hands-on experiments, and learning to answer the questions correctly. He is now on his second term at MetaQuest, and despite the circuit breaker, his MQ teacher has kept the online lessons engaging and interesting. I can see my son actively participating during lessons all the time."

**Eve, Mother of Sun Lee, P4
St Hilda's Primary School**
